

Automotive Engineering Show

International Exhibition on Technologies for
Automotive Manufacturing

7 – 9 July 2015

Chennai Trade Centre, Chennai, India
www.aes-show.com

POST SHOW REPORT

To the point: Targeted publicity measures to benefit exhibitors

The Automotive Engineering Show promotes extensively in local markets to enhance its brand awareness every year using marketing and PR tools which spectacularly resulted in 68% of exhibitors attaining their objectives of presenting innovations, discussing technology and obtaining an overall impression of the South Indian market.

AES is a true representation of the Indian Auto industry & is capable of delivering for future automotive systems. By bringing together people from the right segments, it can enable knowledge transfer which is essential to take us forward.

– Gautam Dutta, Director Marketing, Product Lifecycle Management, Siemens

The show has been a good mix of quantity and quality visitors and we are very happy to be here. AES is a very important show for us to meet with end users and clients; we have generated more enquiries as well as quality leads.

– Chaitanya Bulusu, Branch Manager, Omron Automation Pvt. Ltd.

I am very happy to inaugurate this important industry exhibition. Tamil Nadu has become a front runner among Indian States in-terms of Industrial development. I would like to add that industry professionals must take advantage of Automotive Engineering Show to their benefit.

– Thiru P. Thangamani, Hon'ble Minister of Industries, Govt. of Tamil Nadu

The Automotive Engineering show is an important exhibition for the automotive industry in Chennai. Japanese investments in the Chennai market have increased which makes the Chennai Automotive market a good place to have an exhibition like AES. The visitor response is exceptional and the overall approach of Messe Frankfurt is very professional.

– Sunil Mehta, GM – Technical Support, Factory Automation & Industrial Division, Mitsubishi Electric India Pvt. Ltd.

Bringing vehicle and auto-component manufacturing technology closer to its users

The Automotive Engineering Show posed as the apt location for manufacturers and brands from Germany, India, Italy, Japan and the USA; to bring their latest technological advancements in the field of vehicle manufacturing to the rich automotive district of Chennai. In its 9th edition, the show hosted 106 companies from the Indian subcontinent that provided solutions to 3300 visitors that walked in during the three days of the exhibition.

The international marketplace was a true representation of the latest solutions in IT, automation, material handling and productivity enhancement tools with several companies demonstrating new processes across 3960 sqms at the Chennai trade Centre, Nandambakkam.

96% of visitors were satisfied with the quality of exhibitors and their solutions & technologies at AES Chennai

NEW DELHI

AES joins the scores of ACMA Automechanika New Delhi

The next edition of the Automotive Engineering Show will take place alongside ACMA Automechanika New Delhi in the Nation's capital from 21 – 23 March 2017 at Pragati Maidan.

New Delhi and its surrounding areas boast of India's largest Automotive hub with a lion's share of the market revenues coming from North India. New Delhi, being a central location in this hub, facilitates business by providing easy connectivity to other industrial areas, thus creating an optimum trade environment for Automotive Engineering Show
